Measuring and certifying sustainability in supply chains

Organizers:

Valerio Elia, *University of Salento*
Fabiana Tornese, *University of Salento*
Federica De Leo, *University of Salento*

Description:

The aim of the track is to point out current approaches for designing sustainable supply chains and measuring their performance trough different methods. Papers could propose traceability tools, digital technologies, analytical and heuristic methods for supporting this design and control activities. Furthermore, standard and certification guidelines for measuring sustainability and circularity levels of different supply chains – from the manufacturing to the agrifood sectors - are also relevant topic.

Keywords:

Twin transitions; sustainability; public administration; digitalisation; social and solidarity economy; circular economy.

Further Special Track details are available on AISME2024 website >>

Guidelines:

Authors wishing to contribute are invited to submit an abstract of max 250 words (**template**) by 28 February 2024, by using the software Conftool. The abstract should highlight research objective, methodology, and expected results on the specific topic.

Important dates:

28 February 2024 Abstract submission deadline
15 March 2024 Acceptance notification to authors
10 May 2024 Full paper submission deadline
30 May 2024 Deadline for the final version of the full paper
19-20 September 2024 Conference sessions

Further information:
