Resource Use: Land, energy, Water and other resources in Agriculture and the Agri-Food Chain

Organizers:

Giulio Mario Cappelletti, *University of Foggia*
Stefania Massari, *University of Salento*
Carlo Russo, *University of Pisa*
Sergio Saia, *University of Pisa*
Umile Gianfranco Spizzirri, *University of Bari*

Description:

Resources use in Agriculture and the Agri-Food Chain is a major issue at the local and global level which implies the introduction of circular economy and sustainability principles in the political bodies and public and private management of business affairs. The assessment of material and energy resources efficiency, water scarcity, land use of agricultural processes and agri-food products could play a very important role in improving the sustainability of the sector and the impact that it has on society, especially dealing with a problem, usually faced only from a technical point of view, in a life cycle perspective. Starting from these premises, this Special Track Sessions aims to invite researchers, experts and professionals to submit contributions about methodological aspects, application researches and case studies, about the assessment of resource use in agriculture and agri-food chain. The focus of this topical collection aims also to enhance the awareness of sustainable development and circular economy concepts by promoting the debate and discussion about tools and metrics able to model and certificate sustainability.

Keywords:

Resource Use Efficiency; Landscape management; Rural Development; Life cycle sustainability assessment; Resource footprint; Sustainability modelling; circular systems; Water scarcity; Environmental indicators.

Further Special Track details are available on AISME2024 website >>

Guidelines:

Authors wishing to contribute are invited to submit an abstract of max 250 words (**template**) by 28 February 2024, by using the software Conftool. The abstract should highlight research objective, methodology, and expected results on the specific topic.

Important dates:

28 February 2024 Abstract submission deadline
15 March 2024 Acceptance notification to authors
10 May 2024 Full paper submission deadline
30 May 2024 Deadline for the final version of the full paper
19-20 September 2024 Conference sessions
